Summary

Results-driven Information Security Engineer with a strong foundation in software development and a passion for securing digital ecosystems. Adept at leveraging technical expertise and a continuous learning mindset to drive innovative solutions and mitigate risks. Committed to contributing to organizational success through strategic problem-solving and proactive security measures.

Experience

NCR VOYIX | Information Security Engineer – I   **Feb 2024 - Present**
(Identity and Access Management)

NCR IAM Application :

- Developing NCR IAM platform, an on-premises IAM platform, involved with frontend & backend development with React JS UI, Java adapters, process tasks, Java schedules, Groovy scripts, SOA workflows, SQL Database and PL SQL procedures & function for complete user life cycle.
- Integrated 14+ new applications with NCR IAM, such as PAM CyberArk, Workday, ERP Cloud, EPM Cloud, GCP Cloud, Azure AD, Active Directory and Connected Payments etc.
- Development of dynamic SOA workflows for Approval and Audit (access review) workflows, resulting in a significant reduction of 120 hours (3 weeks) of development and testing effort for each application integration.
- Understanding of Identity management and Application integration, and also the importance of Risk management and access controls.

QuickLook Tool (Identity tool):

- Built an intuitive and user-friendly frontend interface utilizing React JavaScript UI and Bootstrap, among other technologies.
- Implemented Spring Boot Java API, Nginx, and Oracle SQL Database on the backend to guarantee robust server-side performance.

Training

Programming Pathshala | MERN STACK   **May 2022 - July 2022**
Development

- Engaged in hands-on projects to build and deploy full-stack web applications using the MERN stack.
- Enhanced skills in creating RESTful APIs with Express.js and connecting them to a React-based front end.
- Developed proficiency in MongoDB, Express, React, and Node.js, and how these technologies integrate to create full-stack web applications.

Education

Lovely Professional University   **July 2020 - May 2024**
Bachelor of Technology in Computer Science   **Phagwara, Punjab**

Sri Guru Harkrishan Public School   **Ludhiana, Punjab**
Class - XII   **July 2020**

Technical Skills

Computer Languages: C++, Java, SQL

Web Development: HTML, CSS, JS, Bootstrap, React Js, MongoDB, Node JS, Express JS

Technologies/Framework: IAM, OIM, Oracle SOA, Linux, Git/Github

Additional course: Cipherschools Node, React certificate
